

# TikiLIVE White Label STB with ATSC Tuner for Local Channels

## TikiLIVE Combines your OTT content with your Local Programming in one easy to use interface

Cut the chord and save big with the TikiLIVE Over The Top (OTT) streaming service. Add the ATSC Tuner card to pull in the full local channel lineup in your area for local news, sports, programming, and network television.

## Stop Paying For Content You Do Not Watch

Cut out the content that you're paying for that you never watch. With TikiLIVE's OTT content bundles you can pick from a large array of channel lineups and only pay for what you wish and watch your Local Channels for Free.

## We Can Fulfil All Your Content Needs

- ✓ Live Local HD Channels
- ✓ Live OTT HD Channels
- ✓ Live Streaming Music
- ✓ Vast Video On Demand (VOD) Libraries
- ✓ Server Side DVR for all OTT Channels

## No Long Term Contracts

All TikiLIVE content subscriptions are month to month so no need to worry about getting stuck with a bill for a service you're no longer using or any outrageous cancellation fees.

## Same great "Living Room" Channel Guide Experience

TikiLIVE's application comes complete with an in app channel guide providing you all programming information on your favorite channels and shows. We combine our OTT Lineup with the Local Off Air channels available in your region in one unified experience.

## Easy installation

The TikiLIVE White Label STB is a few simple steps to setup and configure so no need to call a professional. Simply connect the Set Top Box to you power source, HDMI, and ATSC antenna and you'll be pulling down content in no time. Our easy to use interface walks you through both WiFi and ethernet setup for your network.
