

## **TikiLIVE Releases Premium Channels on Smart TV App on All Hisense TVs Popular OTT Programming Provider Now Compatible With Branded Televisions**

**Marathon, FL. (Dec. 15th, 2016)** - [TikiLIVE](#), a leading Internet Protocol Television (IPTV) and Over-The-Top, or **OTT Provider**, has just released a host of premium channels on all Hisense TV's that have the Smart TV App.

Hisense is one of the leading brands of smart, HD TV's on the market. They come with many features and allow you connect all of your devices directly to the viewing screen. The brand's TV's boast impeccable quality and clarity and are quickly gaining popular ground in the media marketplace.

"Launching on one of the largest TV platforms in the world is a Win Win for TikiLIVE and our Hisense partner", states Tim of TikiLIVE.

The lineup of premium channels is to include ESPN, AMC, Discovery, A&E, FX USA, History, National Geographic and about 300 other premium, independent channels and over 20 Radio Channels. The main market is focused on North America but niche content packages shall be offered worldwide. This cable alternative will be focused around those who own a Hisense TV and like to save money on their content subscriptions.

The TikiLIVE OTT lineup shall be more compelling and compete head on with other market leaders in the same space such as Sling and Direct TV. To learn more about Hisense TV and the Smart TV App, [visit TikiLive online](#) today.
