Build your own movie playlist  
with Channel Manager.

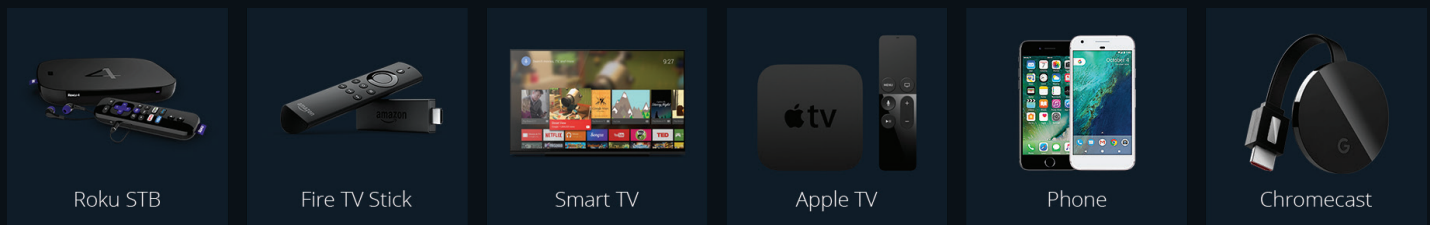

# Get LIVE or Catch Up TV, HD Music and more than 10,000 VOD searchable episodes!

At TikiLIVE we are proud to introduce our powerful TikiLIVE set top box which enables customers to view Streaming Live TV and Video On Demand in HD as well as access our cloud based gaming from the same device!

Built with latest technologies and sporting a compact yet beautifully simple design, the TikiLIVE STB can integrate easily in any OTT or IPTV network with future expansion in mind. Each unit is authenticated with a unique Serial Number allowing more control of the conditional access for each end user. Our native android application can stream up to 4k content both as LIVE and On-Demand viewing.

## TikiLIVE Delivers HD Programming on the most popular devices

## Modules Included

### Replace Logo TikiLIVE branding on TikiLIVE Platform

### QOS Module

- Report Frames Per Second and Bitrate for source of stream
- Viewer metrics include Frames per second and Bitrate for each individual user and device connected to a LIVE stream

### Package Management Module

- Ability to sell broadcasting and content management capabilities to individual users or organizations
- Recurring monthly billing options available
- Customize packages and set limits on account functions, features, and limits

### Pay Per View Module

- Ability to charge for Live events and individual VODs
- Allows for a "hold back" fee to monetize each channel for Admin
- Comprehensive shopping cart checkout experience

### SSL Secured Socket Layer Certificate

\* First year (\$200/year after 12 months)

## Optional Modules

### HTML5 VOD ready\*

\* Requires VOD Transcoder SaaS to publish streams to mobile
