TikiLIVE Network

A TikiLIVE Broadcasting Network allows each broadcaster (Team) to operate independently inside the frame-work established by the administrator.

Each broadcaster has their own channel where they can manage access to their films.

Broadcasters can

- ✓ Choose between broadcasting LIVE, or uploading pre-recorded videos to be part of their Video On Demand library. Live Programs can be auto-recorded for use as VODs.
- ✓ Schedule programs
- ✓ Post information
- ✓ Inform members of any changes
- ✓ Broadcast LIVE
- ✓ Record the Programs
- ✓ Publish recordings as VOD
- ✓ Provide embed codes
- ✓ Upload videos as VODs

Value-added for the Broadcasters

- ✓ Offer Live SD or HD broadcasts
- ✓ Record or Upload for VOD
- ✓ Pay per View for Live or VOD
- ✓ Offer Professional DVD Delivery

Broadcasters are able to setup their own profile pages according to their needs. Social Network plug-ins allow ingestion into 3rd party sites like Facebook and Twitter.

Members can comment and chat in real-time any time they are logged in to the channel.

Our Plug and Play interface allows broadcasters to connect their camera to their computer and stream live to their channel with an auto-record function for saving and storing of their films and offering them as Video On Demand. Site visitors may chat in real-time, upload comments to the profile pages and can blog comments on the channel and to facebook and twitter.

The Network is

- ✓ Easy for the Admin to manage.
- ✓ Easy for the Broadcaster to setup a LIVE broadcast or offer VOD.
- ✓ Easy to navigate for the site visitors.
- ✓ Easy for the Broadcaster to manage access to his/her content.
- ✓ Easy to scale the solution for future growth.

TikiLIVE Super Administration

✓ When a new school enrolls, account is automatically configured using the site template. Each school receives it's own channel for easy management. Email notifications are sent when new schools enroll. Members of the channels have unique login information for simple tracking.

✓ Each Broadcaster has a unique sub-domain Word Press pay per view broadcasting (site) and its members have unique usernames. Profiles are easy to setup members can comment directly on the channel pages. Broadcasters will have admin rights on their channel to publish them or not.

✓ Invitation Emails will allow for messages to be sent by the broadcaster to invite students, family members or friends to attend the live broadcast . Emails will contain user / pass code for viewing protected broadcasts. Access can be granted to the open public or limited to members or by Pay per View.

✓ Network Growth Plan: Administrator has the ability to set up unlimited channels or broadcasters under their TikiLIVE Network .

✓ All reporting and accounting is managed through your Account Dashboard. Monetization, traffic management, and resource usage are easy to track.

- ✓ All fees are determined in advance by the channel or network admin.
- ✓ Once approved the Broadcaster may stream LIVE or upload VOD's to the servers.
- ✓ Broadcasting support is configured and operated by TikiLIVE.
- ✓ End users are invited to view for free or a fee depending on the program settings.
